

## Host a Banquet

An elegant banquet hosted in honor of rescued women and our partnering safe houses is the crowning event of Circle Tour. It is an opportunity to make wounded women feel special, cherished, and honored. WAR, Int'l is passionate about inviting women rescued from the streets to a banquet given by God. Here, she is reminded in her native language that she is redeemed, cleansed, restored, and able to reclaim her true dignity as a daughter of the King.

This year's banquet theme is Enchanted Garden. We were made for the Garden— We were deceived and lost in the Garden of Eden; we were rescued in the Garden of Gethsemane when Christ bowed to "not my will but thine be done." We were given victory in the Garden when HE AROSE. Someday, we will be restored to the perfect Garden City. The vision of the Enchanted Garden banquet is to set the eyes of those rescued and redeemed on the hope of the real Garden that awaits them.

## Give Toward the Banquet!

As the guests of honor, we provide a gift basket for each woman, filled with high quality items. You can give to help offset the cost in two ways:

### \*Sponsor a woman at the Banquet:

### \*Donate toward gift baskets:

## *The Trip of a Lifetime!*

Come and journey to a foreign land. Meet WAR, Int'l partners from around the world. Share, pray, play, shop, and work alongside other women. Visit multiple safehouses where you will meet women rescued from sexual slavery and forced prostitution. Spend your mornings worshipping with these beautiful women who now sing and work with dignity. Go on outreach. See how rescue is done. Learn to have God's eyes for the hurting world around us. You will never be the same!

## *Why is Circle Tour Important?*

Circle Tour is an opportunity to personally serve, minister, and help meet the needs of our partners and rescued women. Above all, our purpose is to encourage women from all over the world.

Circle Tours also bring in professionals to help our partners develop their programs and skills through cake decorating, jewelry design, agronomy, veterinary practice, English teaching, business consulting, and more. Together, eyes are opened, hearts are encouraged, visions are cast, dreams are caught, and plans are made for the glory of God to set the captives free.

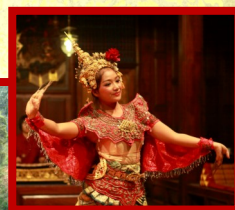

## *Ready, Set, Go!*

Travel is the first part of Circle Tour. From all over the country, Circle Tour participants board planes headed to Tokyo. Once there, they continue their flight to Thailand while traveling as a group. This is a 27-hour opportunity to read, sleep, watch movies, and get to know each other!

## *Experience Thailand*

As you can imagine, going to Thailand is a unique cultural experience. In the past, Circle Tour participants have experienced a dinner cruise, elephant rides, shopping at Thai markets, and cultural landmarks such as the Buddhist Corner. These activities have allowed travelers to find enjoyment in God's creation on an international level. What will 2014 hold? We hope you will join us to find out!

## *Speakers and Special Guests*

In years past, we have been blessed with encouragement from Liz Curtis Higgs and training in areas such as art therapy for our safe house partners. This year we are excited to host Harris III, a renowned, Christian Master Illusionist who weaves the Truth of the Gospel throughout his captivating Art of Illusion.

## *Visit Safehouses*

In Thailand, an epicenter of human trafficking, WAR, Int'l has several safehouses. These beams of light in the darkness are where women (and their children) can find protection, hear that they are valued, know they are loved by God and learn valuable skills to work with dignity. Circle Tour is an opportunity to visit 4-5 of these safehouses. Here we will have group worship with rescued and redeemed women and show these women and children Christ's love in person!

## *Go on Outreach*

Circle Tour participants will go on outreach, venturing into the red light districts of Thailand to pray circles of protection around its women.

Additionally, a main goal of Circle Tour is to develop circles of support and protection around safehouse and program leaders as well as the women working in Bangkok's red light districts. Circle Tour participants along with WAR staff will spend time with these program leaders in order to be exposed to safehouse development & outreach opportunities.
